

Answers to Unit 1 Wkst B: Review for Quiz

$$\begin{aligned} 1. \quad \sin \theta &= \frac{12}{13} & \cot \theta &= \frac{5}{12} \\ \cos \theta &= \frac{5}{13} & \sec \theta &= \frac{13}{5} \\ \tan \theta &= \frac{12}{5} & \csc \theta &= \frac{13}{12} \end{aligned}$$

$$\begin{aligned} 2. \quad \sin \theta &= \frac{1}{2} & \cot \theta &= \sqrt{3} \\ \cos \theta &= \frac{\sqrt{3}}{2} & \sec \theta &= \frac{2}{\sqrt{3}} \\ \tan \theta &= \frac{1}{\sqrt{3}} & \csc \theta &= 2 \end{aligned}$$

$$3. \quad \text{Q1} \quad \text{Coterminal: } \frac{11\pi}{24}, -\frac{85\pi}{24}$$

$$4. \quad \text{Q2} \quad \text{Coterminal: } \frac{19\pi}{7}, -\frac{9\pi}{7}$$

$$5. \quad \text{Coterminal: } \frac{20\pi}{9}, -\frac{16\pi}{9}$$

$$6. \quad \text{Coterminal: } \frac{\pi}{4}, -\frac{15\pi}{4}$$

$$7. \quad \text{Comp: } \frac{3\pi}{8} \quad \text{Supp: } \frac{7\pi}{8}$$

$$8. \quad \text{Comp: None} \quad \text{Supp: None}$$

$$9. \quad \text{Comp: } \frac{\pi}{5} \quad \text{Supp: } \frac{7\pi}{10}$$

$$10. \quad \text{Comp: } \frac{17\pi}{42} \quad \text{Supp: } \frac{19\pi}{21}$$

$$11. \quad \text{Q3} \quad \text{Coterminal: } 605^\circ, -115^\circ$$

$$12. \quad \text{Q4} \quad \text{Coterminal: } 315^\circ, -45^\circ$$

$$13. \quad \text{Coterminal: } 230^\circ, -490^\circ$$

$$14. \quad \text{Coterminal: } 570^\circ, -150^\circ$$

$$15. \quad \text{Comp: } 85^\circ \quad \text{Supp: } 175^\circ$$

$$16. \quad \text{Comp: None} \quad \text{Supp: None}$$

$$17. \quad \text{Comp: } 19^\circ \quad \text{Supp: } 109^\circ$$

$$18. \quad \text{Comp: None} \quad \text{Supp: } 44^\circ$$

$$19. \quad \frac{83\pi}{36}$$

$$20. \quad \frac{-67\pi}{36}$$

$$21. \quad \frac{-2\pi}{5}$$

$$22. \quad \frac{47\pi}{90}$$

$$23. \quad \approx 128.57^\circ$$

$$24. \quad -108^\circ$$

$$25. \quad -210^\circ$$

$$26. \quad 225^\circ$$

$$27. \quad \text{AS} = \frac{\pi}{35} \text{ rad/sec; LS} = \frac{6\pi}{7} \text{ ft/sec}$$

$$28. \quad \text{The tip of the second hand is moving } \frac{\pi}{120} \text{ in/sec or approximately } 0.026 \text{ in/sec.}$$

$$29. \quad \text{The speed of the current is exactly } \frac{10\pi}{11} \text{ mi/hr or approximately } 2.86 \text{ mi/hr.}$$
